

15 January 2015

The Organising Committee welcomes all trainees, endocrinologists, and interested clinicians to the 2015 ESA Seminar, in beautiful Manly, NSW. The theme is Reproductive Endocrinology, and we plan an exciting program covering the spectrum of clinical issues in this important field. Our international guest will be Professor Bradley Anawalt from the University of Washington, USA, a renowned speaker on male reproductive endocrinology. We are also fortunate to have a great depth of Australian expertise who will share their experience in didactic lectures and interactive panel discussions. Full speaker lists and session details to follow shortly. We look forward to seeing you there.

Don McLeod, Chair, Organising Committee

Website: <http://www.esaseminar.org.au/>

Early bird registration now open. **Closes 20<sup>th</sup> February 2015**

## ESA Journals

### Clinical Endocrinology

- Journal of Endocrinology
- Journal of Molecular Endocrinology
- EDM Case Reports
- Australian Endocrinology Research Review

[Access all journals](#)

## Honorary Life Membership of The Endocrine Society of Australia

### Nomination for Life Membership:

Nomination by any ESA member (of at least 5 year membership), to be seconded by another ESA member and accepted by the nominee (via a nomination form).

Considered and approved by a Council vote at the May 2015 ESA Council meeting. Life Membership will normally be limited to one recipient per year.

### Criteria for ESA Life Membership:

- Age over 55.
- Member of ESA for 25 years or more.
- May have served on ESA Council, but have been off Council for a minimum of 2 years.
- Has made an outstanding contribution to research or clinical practice in the field of endocrinology in Australia.
- Is recognised as a high quality mentor/teacher through either supervision of higher degree candidates and/or clinical advanced training in endocrinology.

### ESA Life Membership nomination form 2015

**Deadline: Friday 1st May 2015**

## PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health  
N E T W O R K®  
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

### Click for resources

These are available in both English and Chinese.

\*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

\*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

## The CEN Educational Modules

In 2013, the Endocrine Society of Australia joined the Society for Endocrinology (UK) in adopting Clinical Endocrinology (CEN) as their Society's official journal.

This was a stimulus for the Editors to activate an initiative, which had been planned for 2 years to "unlock the educational potential" of the Journal. Although the Journal's Impact factor (currently 3.4) remains the key benchmark, the Editors believe that articles published in a Society's clinical journal should also be tailored for continuing education and specialist training.

CEN Educational modules are based on articles which are in press or recently published in CEN. The module expands the paper into a topic by including:

Revision Material to provide background, Take Home messages to emphasise the clinical points, Expert Commentary to integrate the material from the article into the current literature - useful for preparation of Journal Club presentations. Multiple Choice Questions (using FRACP format and standard) to test understanding of the module content.

Historical Context to provide a broader understanding of the Art and History of Endocrinology. The modules identify the components of the RACP and RCP's curricula which are covered by the module and each module has clearly defined Learning Objectives. On completion of the module, a printed certificate documenting time spent on the module can be downloaded for CPD purposes.

**The modules are accessible by registering at:**

[www.wileyhealthlearning.com/cen](http://www.wileyhealthlearning.com/cen)

*To date the website contains the following modules:*

- Module 1.** Giant Prolactinoma
- Module 2.** Metabolic consequences of long menstrual cycles
- Module 3.** Pheochromocytoma crisis.
- Module 4.** Maternal hypothyroxinaemia and it's effects on the child.

*Modules completed ready to be released:*

- Module 5.** Pubertal Gynaecomastia. (August 1st)
- Module 6.** Insulin autoimmune syndrome. (September 1st)
- Modules 7** Fetal programming and maternal nutrition (October 1st)
- Module 8.** Bone markers, Skeletal mineralisation and Small for Gestational Age (October 1st)

*Modules assigned and in preparation*

- Module 9.** Mineralocorticoid replacement and 21 Hydroxylase deficiency and Transition care. (November 1st)
- Module 10.** Thyroid cancer markers and prognosis (December 1st)
- Module 11.** Primary Hyperaldosteronism (December 1st).

Each module is written by either an advanced trainee or a consultant endocrinologist with an interest in the particular topic from Australia or the UK. The module is then reviewed by an expert in the field to ensure balance and validity of the material. Stephen Judd is the CEN senior editor, overseeing the project. He welcomes feedback on the modules and invites anyone interested in writing a module to contact him.
