

**Volunteer!!** Endotext has recently benefited by the arrival of 4 volunteers, (Maria Aponte,MD, Ahmad Alhashemi,MD, Fady Hannah-Shmouni,MD, and Ricardo Correa,MD) all young and in or just out of training. They see and feel the future of endocrine learning on this website. Each has taken responsibility for developing one aspect of our program, and we will provide details of their work as they settle in. And we would like to welcome **YOU** as a volunteer as well, so consider it and let us know if you are interested. The work will be expanding the reach and usefulness of ENDOTEXT and THYROIDMANAGER around the US and the world.

As of today ENDOTEXT has 24,200 registered readers, and even more to the point, 531 Enhanced Subscribers who support our Not For Profit organization with a \$20/year contribution. They in turn can download a PDF of every chapter on our web-book every day for a year, if so inclined! (May I note for the wary that ENDOTEXT never ever gives out it's subscriber information to anyone.)

**CME based on ENDOTEXT chapters is available (for FREE currently) via the University of Mississippi website (<http://www.endotext.org/cme/>) and will be certified for the developing joint ABIM/ACCME program, once it is established.**

Lastly, if you find ENDOTEXT useful, we encourage you to spread the word to trainees, colleagues, and friends who may not be aware of this outstanding FREE endocrine text. We are kept afloat and continuing by your subscriptions and your donations. We proudly state that **“if you really want to learn about Endocrinology, ENDOTEXT and THYROIDMANAGER are the sites to visit”**.

**BELIEVE. SOMETIMES IN THIS WORLD YOU CAN RECEIVE SOMETHING VERY VALUABLE AND USEFUL, FOR FREE !!**
