

Arthritis & Osteoporosis WA Research Scholarship in Bone and Mineral Endocrinology

Arthritis & Osteoporosis WA is an organization established to reduce the incidence and disabling effects of arthritis, osteoporosis and related conditions in the people of Western Australia.

The *Arthritis Osteoporosis Foundation of Western Australia* and *The University of Western Australia* are pleased to announce a scholarship funded by the Foundation to undertake a PhD in the area of bone and mineral clinical research.

The purpose of the scholarship is to enable medical doctors undertaking **advanced training in endocrinology via Royal Australasian College of Physicians** or equivalent to utilise their final year of training to start their Masters or Phd by research. This will add to the body of knowledge related to bone and mineral metabolism disorders and increase the pipeline of trained clinical researchers.

Conditions

Advanced trainees who have already completed the first two years of advanced training in Endocrinology are encouraged to apply for this scholarship to undertake a Masters by Research or PhD.

It is likely that completion of a Higher Degree by Research in this field will be recognized for the completion of advanced training by the College.

Applicants must be enrolled in the advanced endocrinology training program of the Royal Australasian College of Physicians or equivalent.

The successful applicant can choose to enrol in a Research Masters in the first instance, with the option to upgrade to a PhD.

Other requirements Australian Citizen, Australian Permanent Resident, New Zealand Citizen

Value \$60000 Per annum

Applications

All applicants should contact Prof RL Prince School of Medicine University of Western Australia and Dept. of Endocrinology Sir Charles Gairdner Hospital at richard.prince@uwa.edu.au for further information, before submitting an online application for candidature and the scholarship through the iAthena Scholarship system.
