### Two Position's vacant – University of Melbourne

Research Assistant: School of BioSciences

Faculty of Science

Deadline: 18 January 2018

Further information: <https://www.endocrinesociety.org.au/positions-vacant.asp>

### Andrology Department Concord Hospital – Study

**Do you see men who are current or past users of non-prescribed androgens (“anabolic steroids”) ?**

Andrology Department at Concord Repatriation General Hospital is recruiting for a study looking at reproductive and cardiac health of men using non-prescribed androgens (“anabolic steroids”).

While it is known that the suppression of testicular reproductive function is slowly reversible with time, the time course and completeness is not well established. Similarly, definitive studies documenting the impact of androgen abuse on cardiac structure, function and its reversibility are lacking. Our study is aimed to answer some of these questions.

We need men between 18-50 years of age, exercising regularly (at least 3 times/week) and current or past (last use > 3months) users of non-prescribed androgens. They must be able to travel to Concord Hospital, Sydney.

The study is done in a single visit over 4 hours or 2 visits of 2 hours each and involves measurement of serum and urine hormones, biochemistry, semen analysis, testicular ultrasound, body composition scans, ECG, ECHO and CT calcium scores.

The study is cost-free to participants and they may get the Hospital lab test results but they will not be paid for participation.

If you have suitable participants please contact the Andrology Department on (02) 9767 7222 or email [androgens.study@anzac.edu.au](mailto:androgens.study@anzac.edu.au) or simply put in participant's details (if willing to participate) on <https://goo.gl/forms/P7uipDaan5NgBfMn2> and we will get in touch with them.

### ESA 2018 meetings

ESA Seminar Meeting 2018, 4-6 May, QT Hotel, Canberra – **Early bird registration deadline: 2 March 2018**

<http://www.esaseminar.org.au/>

ESA Clinical Weekend 2018, 18-19 August, SA

ESA/SRB ASM 2018, 19-22 August, Adelaide Convention Centre

**RACP**  
**CONGRESS**  
**2018**

14–16 May 2018  
Sydney

**DISRUPTION  
FOR HEALTHY  
FUTURES.**

 **RACP**  
Specialists. Together

To find out more or register for the event please visit  
[www.racpcongress.com.au](http://www.racpcongress.com.au)

**Event:** RACP Congress 2018

**Theme:** *Disruption for Healthy Futures*

**Dates:** Monday, 14 May to Wednesday, 16 May 2018

**Venue:** International Convention Centre Sydney (ICC Sydney)

**Website:** [www.racpcongress.com.au](http://www.racpcongress.com.au)

## How to access ESA Journals

ESA has partnered with the Journal **Clinical Endocrinology**, This will be our Society's journal. ESA members will have electronic access to this journal and will be able to get articles published. The editorial board can be expanded to include more Australian members.

**Clinical Endocrinology** publishes papers and reviews which focus on the clinical aspects of endocrinology, including the clinical application of molecular endocrinology. It does not publish papers relating directly to diabetes care and clinical management. It features reviews, original papers, commentaries, cases of the month, book reviews and letters to the editor. **Clinical Endocrinology** is essential reading not only for those engaged in endocrinological research but also for those involved primarily in clinical practice.

**To access the journal:**

**Use the member log-in on the homepage: <http://www.endocrinesociety.org.au/>**

**Go to membership then Clinical Endocrinology Journal**

**Journal of Endocrinology** is the highest impact journal dedicated to basic endocrinology.

**Journal of Endocrinology** publishes original research articles, reviews and science guidelines. Its focus is on endocrine physiology and metabolism, including hormone secretion; hormone action and biological effects. The journal publishes basic and translational studies at the organ, tissue and whole organism level.

ESA endorses **Journal of Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges. **Impact Factor: 4.706**

Website: <http://joe.endocrinology-journals.org/>

**Journal of Molecular Endocrinology** is the only society-owned journal dedicated to molecular endocrinology.

The journal focuses on molecular and cellular mechanisms in endocrinology, including: gene regulation, cell biology, signalling, mutations, transgenics, hormone-dependant cancers, nuclear receptors, and omics. Basic and pathophysiological studies at the molecule and cell level are considered, as well as human sample studies where this is the experimental model of choice.

Technique studies including CRISPR or gene editing are also encouraged.

ESA endorses **Journal of Molecular Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges.

**Impact Factor: 3.577**

Website: <http://jme.endocrinology-journals.org/>

**Endocrinology, Diabetes & Metabolism Case Reports** is a unique, open-access resource that publishes and links together case reports, enabling practitioners to communicate findings, share knowledge and convey medical experiences efficiently and effectively; furthering both medical education and clinical practice. The search and browse functionality enables fluid navigation between case reports, facilitating discovery, connections and comparisons; making it the go-to resource across all the many disciplines intersecting with endocrinology, diabetes and metabolism.

ESA is one of many leading international societies that endorse **EDM Case Reports** in collaboration with Bioscientifica, a publisher wholly owned by the Society for Endocrinology. Members of ESA are eligible for a 25% discount on the publishing fee.

## Australian Endocrinology Research Review

Australian Endocrinology Research Review is an independent medical update. Each edition features 10 key medical articles from global endocrinology journals with commentary from Professor Cres Eastman and Professor Duncan Topliss on why it matters to Australian practice.

It is free to receive for all Australian health professionals and is delivered by email as a PDF attachment.

[Sign Up here](#) to receive the publication on a regular basis.

## PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health  
NETWORK®  
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

### [Click for resources](#)

These are available in both English and Chinese.

\*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

\*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

### **ENDOCRINOLOGY PRACTICE for SALE / LEASE**

Specialist consulting rooms in Specialist Medical Centre  
Suite 4 / 41-43 Goulburn Street, Liverpool, Sydney and  
Taking over established busy solo Endocrine private practice  
Owner retiring after 25 years

I am looking for an endocrinologist or group of endocrinologists to take over the only full time endocrine practice in the Liverpool area.

The surgery is 61 square meters, with a large reception area and two consulting rooms, and is fully furnished. It has a dedicated secure parking spot, as well as shared patient parking.

There are over 400 GP's in the Liverpool area providing a large referral base of all endocrine diseases, including diabetes, thyroid and pituitary.

There are endocrine / thyroid surgeons, neurosurgeons, as well as a vascular surgeon in the same building, with whom I share many patients, as well as a Douglass Pathology collection centre on site, and nuclear medicine and X-ray, including 3Tesla MRI in the same building, providing valuable interaction with imaging services and other specialties.

Sydney Southwest Private hospital is right next door, as is the Liverpool Hospital Diabetes Centre, providing educator and dietitian support for your diabetic patients.

Contact Details: Dr Tom Hauser 0418-971918

## 2018

### 11-13 February 2018

Lorne Genome Conference  
Victoria
