ICE 2018

The plenary speakers have been confirmed for ICE 2018 in Capetown. See the following link for details.

<http://www.ice2018.org/index.php/programme/plenary-speakers>

PAMISOLT disodium pamidronate supply shortage

Anticipated supply shortage from Pfizer Australia for PAMISOL™ disodium pamidronate (15mg and 90mg presentations).

[Download letter](#)

XIGDUO

TGA report an anticipated shortage of XIGDUO XR 10/1000. See the following link for details.

ESA/IPSEN International travel award

Aim: To support younger members of the society to travel to international meetings to present an abstract, visit laboratories and clinics to further their training and knowledge in Endocrinology.

Awards: Three awards of \$3500 each will be granted to assist with the costs of international travel to attend an International destination.

Application deadline: 1st December 2017

<http://www.endocrinesociety.org.au/awards-and-grants.asp>

FINAL CALL: FUNDING FOR HEALTH SECTOR WOMEN AVAILABLE

Women currently working in the health care sector have a final opportunity to register their interest in a scholarship worth up to \$8,000 to support participation in an accredited leadership development program.

Funding must be apportioned by the end of 2017 and it is unsure when these grants will be available again. Find out more and register your interest by completing the Expression of Interest form here prior to December 15, 2017:

Medicine in Australia: Balancing Employment and Life (MABEL)

The 10th wave of the MABEL (Medicine in Australia: Balancing Employment and Life) Survey has recently been sent to over 20,000 doctors in Australia who have previously responded. This is a unique chance to contribute to independent and rigorous evidence about doctors working lives and how they are affected by the health care system. Those who have filled it out before should have received a letter or email. If you have not filled it out but would like to, please go to www.mabel.org.au and sign up to be included. We wholeheartedly appreciate the time you spend in filling out the survey – it really is making a difference.

Professor Anthony Scott
Melbourne Institute: Applied Economic & Social Research
The University of Melbourne

How to access ESA Journals

ESA has partnered with the Journal **Clinical Endocrinology**, This will be our Society's journal. ESA members will have electronic access to this journal and will be able to get articles published. The editorial board can be expanded to include more Australian members.

Clinical Endocrinology publishes papers and reviews which focus on the clinical aspects of endocrinology, including the clinical application of molecular endocrinology. It does not publish papers relating directly to diabetes care and clinical management. It features reviews, original papers, commentaries, cases of the month, book reviews and letters to the editor. **Clinical Endocrinology** is essential reading not only for those engaged in endocrinological research but also for those involved primarily in clinical practice.

To access the journal:

Use the member log-in on the homepage: <http://www.endocrinesociety.org.au/>

Go to membership then Clinical Endocrinology Journal

Journal of Endocrinology is the highest impact journal dedicated to basic endocrinology.

Journal of Endocrinology publishes original research articles, reviews and science guidelines. Its focus is on endocrine physiology and metabolism, including hormone secretion; hormone action and biological effects. The journal publishes basic and translational studies at the organ, tissue and whole organism level.

ESA endorses **Journal of Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges. **Impact Factor: 4.706**

Website: <http://joe.endocrinology-journals.org/>

Journal of Molecular Endocrinology is the only society-owned journal dedicated to molecular endocrinology.

The journal focuses on molecular and cellular mechanisms in endocrinology, including: gene regulation, cell biology, signalling, mutations, transgenics, hormone-dependant cancers, nuclear receptors, and omics. Basic and pathophysiological studies at the molecule and cell level are considered, as well as human sample studies where this is the experimental model of choice.

Technique studies including CRISPR or gene editing are also encouraged.

ESA endorses **Journal of Molecular Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges.

Impact Factor: 3.577

Website: <http://jme.endocrinology-journals.org/>

Endocrinology, Diabetes & Metabolism Case Reports is a unique, open-access resource that publishes and links together case reports, enabling practitioners to communicate findings, share knowledge and convey medical experiences efficiently and effectively; furthering both medical education and clinical practice. The search and browse functionality enables fluid navigation between case reports, facilitating discovery, connections and comparisons; making it the go-to resource across all the many disciplines intersecting with endocrinology, diabetes and metabolism.

ESA is one of many leading international societies that endorse **EDM Case Reports** in collaboration with Bioscientifica, a publisher wholly owned by the Society for Endocrinology. Members of ESA are eligible for a 25% discount on the publishing fee.

Australian Endocrinology Research Review

Australian Endocrinology Research Review is an independent medical update. Each edition features 10 key medical articles from global endocrinology journals with commentary from Professor Cres Eastman and Professor Duncan Topliss on why it matters to Australian practice.

It is free to receive for all Australian health professionals and is delivered by email as a PDF attachment.

[Sign Up here](#) to receive the publication on a regular basis.

PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health
NETWORK®
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

Click for resources

These are available in both English and Chinese.

*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

2017

14-15 November 2017

The 56th ASMR National Scientific Conference
Charles Perkins Centre, Sydney,
