ICE 2018

Abstract submission for ICE 2018 in Cape Town is now open, closes February 28, 2018. See the following link for details.

www.ice2018.org

Training in transgender medicine survey

As we are about to close this survey shortly (31/12/17), we wanted to invite all endocrinologists and endocrine trainees to have an opportunity to participate in this very brief 3 minute survey to assess whether there is any need or interest in further education in managing gender dysphoria. Thank you to all who have already completed the survey previously.

<https://www.surveymonkey.com/r/endotrans>

We thank you for your honest opinions and contributions. Please only answer this survey once.

Kind regards

Ada Cheung, Ingrid Bretherton and Jeffrey Zajac

Department of Medicine (Austin Health), The University of Melbourne

ESA 2018 meetings

ESA Seminar Meeting 2018, 4-6 May, QT Hotel, Canberra

ESA Clinical Weekend 2018, 18-19 August, SA

ESA/SRB ASM 2018, 19-22 August, Adelaide Convention Centre

ESA Seminar 2018

<http://www.esaseminar.org.au/>

Early-bird registration deadline: 2 March 2018

The ESA Seminar 2018 will be held on the 4 - 6 May 2018 in Canberra at the QT Hotel.

I encourage you join us in our national capital in what is sure to be another outstanding meeting in Endocrinology.

Below are some of the topics to be covered at the Seminar in 2018:

Keynote lectures

- Managing diabetes in 2018
- Technology in diabetes

Seminar topics include

- Obesity and dietary management
- Insulin and exercise in patients with Type 1 diabetes
- Atypical presentations of diabetes
- Cardiovascular risk assessment and management
- Thyroid disorders in pregnancy
- Gestational diabetes and diabetes in pregnancy

Many exciting speakers have now been confirmed. Stay posted for the Saturday Afternoon Activities.

With best wishes

Bu Yeap

University of Western Australia

How to access ESA Journals

ESA has partnered with the Journal **Clinical Endocrinology**, This will be our Society's journal. ESA members will have electronic access to this journal and will be able to get articles published. The editorial board can be expanded to include more Australian members.

Clinical Endocrinology publishes papers and reviews which focus on the clinical aspects of endocrinology, including the clinical application of molecular endocrinology. It does not publish papers relating directly to diabetes care and clinical management. It features reviews, original papers, commentaries, cases of the month, book reviews and letters to the editor. **Clinical Endocrinology** is essential reading not only for those engaged in endocrinological research but also for those involved primarily in clinical practice.

To access the journal:

Use the member log-in on the homepage: <http://www.endocrinesociety.org.au/>

Go to membership then Clinical Endocrinology Journal

Journal of Endocrinology is the highest impact journal dedicated to basic endocrinology.

Journal of Endocrinology publishes original research articles, reviews and science guidelines. Its focus is on endocrine physiology and metabolism, including hormone secretion; hormone action and biological effects. The journal publishes basic and translational studies at the organ, tissue and whole organism level.

ESA endorses **Journal of Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges. **Impact Factor: 4.706**

Website: <http://joe.endocrinology-journals.org/>

Journal of Molecular Endocrinology is the only society-owned journal dedicated to molecular endocrinology.

The journal focuses on molecular and cellular mechanisms in endocrinology, including: gene regulation, cell biology, signalling, mutations, transgenics, hormone-dependant cancers, nuclear receptors, and omics. Basic and pathophysiological studies at the molecule and cell level are considered, as well as human sample studies where this is the experimental model of choice.

Technique studies including CRISPR or gene editing are also encouraged.

ESA endorses **Journal of Molecular Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges.

Impact Factor: 3.577

Website: <http://jme.endocrinology-journals.org/>

Endocrinology, Diabetes & Metabolism Case Reports is a unique, open-access resource that publishes and links together case reports, enabling practitioners to communicate findings, share knowledge and convey medical experiences efficiently and effectively; furthering both medical education and clinical practice. The search and browse functionality enables fluid navigation between case reports, facilitating discovery, connections and comparisons; making it the go-to resource across all the many disciplines intersecting with endocrinology, diabetes and metabolism.

ESA is one of many leading international societies that endorse **EDM Case Reports** in collaboration with Bioscientifica, a publisher wholly owned by the Society for Endocrinology. Members of ESA are eligible for a 25% discount on the publishing fee.

Australian Endocrinology Research Review

Australian Endocrinology Research Review is an independent medical update. Each edition features 10 key medical articles from global endocrinology journals with commentary from Professor Cres Eastman and Professor Duncan Topliss on why it matters to Australian practice.

It is free to receive for all Australian health professionals and is delivered by email as a PDF attachment.

[Sign Up here](#) to receive the publication on a regular basis.

PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health
N E T W O R K®
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

[Click for resources](#)

These are available in both English and Chinese.

*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

ENDOCRINOLOGY PRACTICE for SALE / LEASE

Specialist consulting rooms in Specialist Medical Centre
Suite 4 / 41-43 Goulburn Street, Liverpool, Sydney and
Taking over established busy solo Endocrine private practice
Owner retiring after 25 years

I am looking for an endocrinologist or group of endocrinologists to take over the only full time endocrine practice in the Liverpool area.

The surgery is 61 square meters, with a large reception area and two consulting rooms, and is fully furnished. It has a dedicated secure parking spot, as well as shared patient parking.

There are over 400 GP's in the Liverpool area providing a large referral base of all endocrine diseases, including diabetes, thyroid and pituitary.

There are endocrine / thyroid surgeons, neurosurgeons, as well as a vascular surgeon in the same building, with whom I share many patients, as well as a Douglass Pathology collection centre on site, and nuclear medicine and X-ray, including 3Tesla MRI in the same building, providing valuable interaction with imaging services and other specialties.

Sydney Southwest Private hospital is right next door, as is the Liverpool Hospital Diabetes Centre, providing educator and dietitian support for your diabetic patients.
