ESA 2018 meetings

ESA Seminar Meeting 2018, 4-6 May, QT Hotel, Canberra
ESA Clinical Weekend 2018, 18-19 August, SA
ESA/SRB ASM 2018, 19-22 August, Adelaide Convention Centre

ESA, ADS and ANZBMS - Assoc Prof Anthony Russell

Join us for a webinar on Oct 11, 2017 at 6:00 PM AEDT.

Register now!

<https://attendee.gotowebinar.com/register/7772198490771177218>

Presenter: Assoc Prof Anthony Russell

After registering, you will receive a confirmation email containing information about joining the webinar.

IMPORTANT DEADLINES:

THE ESA KEN WYNNE MEMORIAL POSTDOCTORAL RESEARCH AWARD	30 October 2017
ESA Postdoctoral Award	30 October 2017
ESA Research Higher Degree Scholarship	30 October 2017
ESA/IPSEN International travel award	1 December 2017

Invitation for your participation in a research study: Clinicians' views and experiences regarding PCOS

PCOS affects 12-21% of reproductive aged women (Australian Family Physician, 2012).

What are the challenges and uncertainties regarding the diagnosis and management of PCOS? Your views are crucial to generating valuable insights that will improve diagnosis and management for women with PCOS. If you are a clinician practising in Australia and you see women with PCOS or PCOS-like symptoms, please take part in this important study, conducted by a team of researchers and clinicians from the University of Sydney, University of Adelaide, and Bond University. The study involves a 30-minute phone interview to explore your views, experiences, and decision making about the diagnosis and management of PCOS. If you are interested in taking part, or have any questions, please email Tessa Copp, the study co-ordinator, at tcop6073@uni.sydney.edu.au (phone +61 2 9351 3137). We will then contact you via email or phone to discuss the study further with you and arrange a convenient time to be interviewed.

Arthritis & Osteoporosis WA Research Scholarship in Bone and Mineral Endocrinology

Arthritis & Osteoporosis WA is an organization established to reduce the incidence and disabling effects of arthritis, osteoporosis and related conditions in the people of Western Australia.

The **Arthritis Osteoporosis Foundation of Western Australia and The University of Western Australia** are pleased to announce a scholarship funded by the Foundation to undertake a PhD in the area of bone and mineral clinical research.

The purpose of the scholarship is to enable medical doctors undertaking *advanced training in endocrinology via Royal Australasian College of Physicians* or equivalent to utilise their final year of training to start their Masters or Phd by research. This will add to the body of knowledge related to bone and mineral metabolism disorders and increase the pipeline of trained clinical researchers.

Web site information

[Arthritis & Osteoporosis WA Research Scholarship in Bone and Mineral Endocrinology](#)

Applications close 31/10/2017. The selection body reserves the right to close early should a suitable applicant be identified.

Position title: SPECIALIST PHYSICIANS FOR PRIVATE PRACTICE IN SYDNEY

Department: Private Practice Rooms

Location: Campbelltown, NSW, AUSTRALIA

Type of position: Locum

Position description: We are looking for Specialist Physicians to join our growing Specialist Practice in South Western Sydney. You will be working as part of a well-established and growing Specialist Clinic, consisting of various medical specialties and Allied Health. The practice is well supported by administrative and clerical assistance. Working arrangement and times are flexible. The practice also offers options for work at local Private Hospitals for appropriate specialties, and mentorship to help establish your private practice career. We are incorporating telemedicine into our practice, allowing for more flexible work hours and added work opportunities.

Qualifications: FRACP or equivalent (such as Fellowship of the Faculties/Chapters of RACP)

Contact Details: Tina Brown

Campbelltown

Ph: [0499183232](tel:0499183232)

How to access ESA Journals

ESA has partnered with the Journal **Clinical Endocrinology**, This will be our Society's journal. ESA members will have electronic access to this journal and will be able to get articles published. The editorial board can be expanded to include more Australian members.

Clinical Endocrinology publishes papers and reviews which focus on the clinical aspects of endocrinology, including the clinical application of molecular endocrinology. It does not publish papers relating directly to diabetes care and clinical management. It features reviews, original papers, commentaries, cases of the month, book reviews and letters to the editor. **Clinical Endocrinology** is essential reading not only for those engaged in endocrinological research but also for those involved primarily in clinical practice.

To access the journal:

Use the member log-in on the homepage: <http://www.endocrinesociety.org.au/>

Go to membership then Clinical Endocrinology Journal

Journal of Endocrinology is the highest impact journal dedicated to basic endocrinology.

Journal of Endocrinology publishes original research articles, reviews and science guidelines. Its focus is on endocrine physiology and metabolism, including hormone secretion; hormone action and biological effects. The journal publishes basic and translational studies at the organ, tissue and whole organism level.

ESA endorses **Journal of Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges. **Impact Factor: 4.706**

Website: <http://joe.endocrinology-journals.org/>

Journal of Molecular Endocrinology is the only society-owned journal dedicated to molecular endocrinology.

The journal focuses on molecular and cellular mechanisms in endocrinology, including: gene regulation, cell biology, signalling, mutations, transgenics, hormone-dependant cancers, nuclear receptors, and omics. Basic and pathophysiological studies at the molecule and cell level are considered, as well as human sample studies where this is the experimental model of choice.

Technique studies including CRISPR or gene editing are also encouraged.

ESA endorses **Journal of Molecular Endocrinology** entitling the ESA membership to a 25% discount on colour figure charges.

Impact Factor: 3.577

Website: <http://jme.endocrinology-journals.org/>

Endocrinology, Diabetes & Metabolism Case Reports is a unique, open-access resource that publishes and links together case reports, enabling practitioners to communicate findings, share knowledge and convey medical experiences efficiently and effectively; furthering both medical education and clinical practice. The search and browse functionality enables fluid navigation between case reports, facilitating discovery, connections and comparisons; making it the go-to resource across all the many disciplines intersecting with endocrinology, diabetes and metabolism.

ESA is one of many leading international societies that endorse **EDM Case Reports** in collaboration with Bioscientifica, a publisher wholly owned by the Society for Endocrinology. Members of ESA are eligible for a 25% discount on the publishing fee.

Australian Endocrinology Research Review

Australian Endocrinology Research Review is an independent medical update. Each edition features 10 key medical articles from global endocrinology journals with commentary from Professor Cres Eastman and Professor Duncan Topliss on why it matters to Australian practice.

It is free to receive for all Australian health professionals and is delivered by email as a PDF attachment.

[Sign Up here](#) to receive the publication on a regular basis.

PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health
NETWORK®
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

Click for resources

These are available in both English and Chinese.
