With best wishes On behalf of the Program Organising Committee, I warmly invite you to attend the ESA Seminar 2017 to be held from 26 - 28 May at the Langham Hotel, Melbourne.

This meeting will focus on the management of pituitary disease, with a second theme of bone disease. I am delighted to announce that our international invited speaker is **Prof Ashley Grossman**, Professor of Endocrinology at the University of Oxford, and current President of the Pituitary Society. Ashley has published 470 peer-reviewed papers in the field of hypothalamo-pituitary regulation, pituitary tumours and endocrine oncology. He will present the Plenary Lecture on Cushing's Disease, co-chair a panel discussion on difficult pituitary cases and present a 'Meet-the-Professor'. Other sessions chaired and presented by a range of nationally and internationally recognised experts will cover hot topics in the management of pituitary and bone disease. I look forward to welcoming you to the Seminar in Melbourne, and anticipate this will continue the succession of successful meetings enjoyed over recent years characterised by their collegiate spirit and convivial atmosphere, as well as relevant and topical educational presentations.

**Bu Yeap**

RACP Congress 2017 marks the beginning of a new era for Congress, a flagship event and meeting place for all physicians.

Congress has been the College's 'stand-out' annual event since 1939, bringing physicians together to celebrate medical progress and achievement, shape healthcare policy, accelerate education and training and enhance patient care.

The new 'shared interests' focus of Congress 2017 is a landmark response to RACP research on the needs and interests of its 25,000 members. The answer was loud and clear and is summarised succinctly in the Congress 2017 slogan, Bringing Specialists Together. Sharing Knowledge. Building Skills.

## **PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society**

**Hormone Health**  
**N E T W O R K**<sup>®</sup>  
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

### **Click for resources**

These are available in both English and Chinese.

\*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

\*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

### **Find an Endocrinologist**

The Endocrine Society of Australia receives regular enquiries to recommend an endocrinologist with particular interests or expertise. Endocrinology is a broad field, which includes some very common conditions, but also some very rare ones. As a result, people who have rare conditions may benefit from seeing a specialist with additional experience or expertise. The Society comprises clinical endocrinologists and also scientists, who research endocrine disorders but do not see patients. Clinical members of the Society have been invited to submit their contact details and self-nominated areas of interest. Please note that the Endocrine Society of Australia is providing this as a community service to help patients find a suitable endocrinologist (considering both geographical issues and area of interest). The Society is not endorsing or recommending any of the listed clinicians or their degree of expertise.

The general public will be able to search for an Endocrinologist in this section: <http://www.endocrinesociety.org.au/search-for-an-endocrinologist.asp>

If you would like to be listed in 'Find an Endocrinologist' Log in at the ESA homepage: <http://www.endocrinesociety.org.au/>

### **Attention clinical endocrinologists:**

The RACP is undertaking a trial of multisource feedback (MSF) as part of the process of continuing professional development. The details are outlined in the accompanying document. If you are interested in participating in this trial please email [Multisource.Feedback@racp.edu.au](mailto:Multisource.Feedback@racp.edu.au) or call on +61 2 8247 6203. Registration is open until 31<sup>st</sup> March 2017.
