### **Examining the management of gestational diabetes mellitus – Survey**

‘Examining the management of gestational diabetes mellitus’ is an Australian survey aimed at all members of the multidisciplinary team involved in gestational diabetes management. If you are a doctor, dietitian, diabetes educator or midwife who is living in Australia and practicing in gestational diabetes, this survey is for you.

The survey is part of the PhD research for Queensland University of Technology student, Nina Meloncelli, APD who is also a clinical dietitian for Queensland Health. The survey has been approved by Queensland Health Human Research Ethics Committee (HREC/17/QRBW/9) and the Queensland University of Technology Human Research Ethics Committee (170000111).

The link below will first take you to Participant Information and Consent and from there you may decide to proceed with the survey or opt out.

### **Trans Health SA**

A community project in SA “Trans Health SA” is curating a list of medical, mental health and other health practitioners in South Australia willing to be approached by people questioning their gender and/or wanting to socially, medically or legally transition, but needing/wanting professional support to do so. The list includes General Practitioners, Psychologists, Psychiatrists, Endocrinologists, Speech Therapists, Social Workers, Counsellors and Sexual Health Physicians.

Trans Health SA is inviting endocrinologists in SA with an interest in this area to make contact if they are willing to be included in this list. If you are an endocrinologist in SA and wish to know more, you can contact Zac Cannell, Trans Health SA at [transhealthsa@outlook.com](mailto:transhealthsa@outlook.com).

With best wishes On behalf of the Program Organising Committee, I warmly invite you to attend the ESA Seminar 2017 to be held from 26 - 28 May at the Langham Hotel, Melbourne.

This meeting will focus on the management of pituitary disease, with a second theme of bone disease. I am delighted to announce that our international invited speaker is **Prof Ashley Grossman**, Professor of Endocrinology at the University of Oxford, and current President of the Pituitary Society. Ashley has published 470 peer-reviewed papers in the field of hypothalamo-pituitary regulation, pituitary tumours and endocrine oncology. He will present the Plenary Lecture on Cushing's Disease, co-chair a panel discussion on difficult pituitary cases and present a 'Meet-the-Professor'. Other sessions chaired and presented by a range of nationally and internationally recognised experts will cover hot topics in the management of pituitary and bone disease. I look forward to welcoming you to the Seminar in Melbourne, and anticipate this will continue the succession of successful meetings enjoyed over recent years characterised by their collegiate spirit and convivial atmosphere, as well as relevant and topical educational presentations.

## **PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society**

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

### **Click for resources**

These are available in both English and Chinese.

\*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

\*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

### **Find an Endocrinologist**

The Endocrine Society of Australia receives regular enquiries to recommend an endocrinologist with particular interests or expertise. Endocrinology is a broad field, which includes some very common conditions, but also some very rare ones. As a result, people who have rare conditions may benefit from seeing a specialist with additional experience or expertise. The Society comprises clinical endocrinologists and also scientists, who research endocrine disorders but do not see patients. Clinical members of the Society have been invited to submit their contact details and self-nominated areas of interest. Please note that the Endocrine Society of Australia is providing this as a community service to help patients find a suitable endocrinologist (considering both geographical issues and area of interest). The Society is not endorsing or recommending any of the listed clinicians or their degree of expertise.

The general public will be able to search for an Endocrinologist in this section: <http://www.endocrinesociety.org.au/search-for-an-endocrinologist.asp>

If you would like to be listed in 'Find an Endocrinologist' Log in at the ESA homepage: <http://www.endocrinesociety.org.au/>
