IMPORTANT DEADLINES:

ESA Mid-Career Award	9 June 2017
Clinical weekend case studies	9 June 2017
Abstract deadline	9 June 2017
Novartis Junior Scientist Award	9 June 2017
Servier Award	9 June 2017
ESA Bryan Hudson Clinical Endocrinology Award	9 June 2017
ESA Travel Grants	9 June 2017
ESA Senior Plenary Award	9 June 2017
ESA Outstanding Clinical Practitioner Award	9 June 2017
ESA Life member nomination	16 June 2017
RACP/ESA Research Establishment fellowship in Endocrinology	3 July 2017

MONASH University
Medicine, Nursing and Health Sciences

RESEARCH INVITATION: We are seeking your help in identifying the knowledge gaps, barriers and needs of clinicians related to osteoporosis prevention and management in women with PM

Premature menopause (PM)/ premature ovarian insufficiency (POI), defined as loss of ovarian function/ menopause in women <40 years of age, may occur spontaneously, or secondary to medical treatment. Spontaneous POI affects 1% of women with iatrogenic PM affecting up to 10% of women. PM places women at increased risk of osteoporosis and osteoporosis was the most common long term fear associated with PM.

The study titled "***Addressing gaps and understanding and management of osteoporosis in premature menopause***" is being conducted through Monash Centre for Health Research and Implementation (MCHRI), Monash University and Monash Medical Centre in Clayton. This research has been approved by the Monash Health Human Research Ethics Committee.

The anonymous online survey should take approximately 10-15 minutes to complete. You do not have to answer any question you are not comfortable with and you may stop participating at any point. By answering this survey you consent to the use of anonymous information to inform the development of educational resources for clinicians with the aim of improving knowledge and management of bone health in women with PM/POI. If you have any questions about this research please email MCHRI-earlymenopausestudy@monash.edu using the subject heading "Osteoporosis study".

If you are interested in participating in this study, please click here:

<http://app.surveymethods.com/EndUser.aspx?EDC9A5BDE8A9BABFE8>

Thank you for your time and consideration.

Sincerely,

Clin Assoc Prof Amanda Vincent MBBS, B Med Sci
(Hons), PhD, FRACP
Research Fellow

Monash Centre for Health Research and Implementation-MCHRI School of Public Health
and Preventive Medicine, Monash University

Honorary Life Membership of The Endocrine Society of Australia

Nomination for Life Membership:

Nomination by any ESA member (of at least 5 year membership), to be seconded by another ESA member and accepted by the nominee (via a nomination form).

Considered and approved by a Council vote. Life Membership will normally be limited to one recipient per year.

Criteria for ESA Life Membership:

- Age over 55.
- Member of ESA for 25 years or more.
- May have served on ESA Council, but have been off Council for a minimum of 2 years.
- Has made an outstanding contribution to research or clinical practice in the field of endocrinology in Australia.
- Is recognised as a high quality mentor/teacher through either supervision of higher degree candidates and/or clinical advanced training in endocrinology.

ESA Life member nomination form 2017

Provide your CV including the information listed below.

Central West Specialists - Position Vacant

Endocrinologist required urgently in Orange, NSW for locum position with the potential for an ongoing permanent position.

Central West Specialists is a multi-disciplinary practice with specialties including ENT, Respiratory, Urology, Renal, Endocrinology, Sports Medicine and Pain Management. The doctors are supported by dedicated staff and attract patients who see the practice as offering high quality health services dedicated to patient care and support.

“With impressive colonial buildings, award-winning restaurants and elegant wine bars, the vibrant city of Orange is the perfect escape for fine food and wine and wonderful heritage walks. Enjoy delicious festivals and stroll in beautiful parks and gardens. Nearby are acclaimed wineries to visit and wilderness trails to explore.” www.visitnsw.com/orange

Please contact Kären Sims, at Central West Specialists on 63631688 or email karen@centralwestent.com.au

REMINDER TO PAY YOUR SUBSCRIPTION DUES

ESA membership subscriptions are **now due**. Please ensure that the Secretariat has all the correct mailing and contact details, particularly email addresses, as we rely on these to maintain contact with you and keep you informed of ESA activities.

Membership to the ESA permits access to all meetings, obtaining membership registration, opportunity to apply for the various ESA awards/Travel Grants and the ESA newsletter and journals.

Please renew your subscription by logging in at www.endocrinesociety.org.au and selecting Subscription Renewal from the menu.

PATIENT RESOURCES IN ENDOCRINOLOGY- a partnership between ESA and the US Endocrine Society

Hormone Health
NETWORK®
FROM THE ENDOCRINE SOCIETY

<http://www.endocrinesociety.org.au/patient-resources/index.asp>

The Endocrine Society of Australia have established an international collaboration with the US Endocrine Society to adapt patient information to the Australian setting and make them readily available.

These resources are rigorously developed, evidence based and aimed to support patients to understand their endocrine condition with the support of their doctor.

Click for resources

These are available in both English and Chinese.

*This information is designed to be informative and educational. It is not intended to provide specific medical advice or replace advice from your doctor.

*Please note that only the information on the Australian link below is adapted to national settings including medications and tests. Other resources on the US website may be helpful but may not be consistent with Australian practice.

Find an Endocrinologist

The Endocrine Society of Australia receives regular enquiries to recommend an endocrinologist with particular interests or expertise. Endocrinology is a broad field, which includes some very common conditions, but also some very rare ones. As a result, people who have rare conditions may benefit from seeing a specialist with additional experience or expertise. The Society comprises clinical endocrinologists and also scientists, who research endocrine disorders but do not see patients. Clinical members of the Society have been invited to submit their contact details and self-nominated areas of interest. Please note that the Endocrine Society of Australia is providing this as a community service to help patients find a suitable endocrinologist (considering both geographical issues and area of interest). The Society is not endorsing or recommending any of the listed clinicians or their degree of expertise.

The general public will be able to search for an Endocrinologist in this section: <http://www.endocrinesociety.org.au/search-for-an-endocrinologist.asp>

If you would like to be listed in 'Find an Endocrinologist' Log in at the ESA homepage: <http://www.endocrinesociety.org.au/>
