Abstract submissions are now open!

Oral Abstract Submission Deadline: **Friday 8th August 2014**

Poster Abstract Submission Deadline: **Friday 12th September 2014**

2014 Jean Hailes Women's Health Week – Maintaining an ongoing agenda of prevention in women's health

Jean Hailes is pleased to be holding a signature event in Australia's health calendar – the Jean Hailes Women's Health Week. This year's theme is 'Confidence' as evidence indicates a strong association between confidence and positive behaviour change and improved health and wellbeing.

In recognition that no event existed to date in the Australian health calendar, the Women's Health Week is aimed at encouraging women to take the time to focus on their health and wellbeing, with a focus on prevention. The Women's Health Week will encompass online resources for all Australian women and their health professionals and a week-long festival of community-based events. All resources will be made available at no cost through a purpose-built online portal (www.womenshealthweek.com.au) to promote access to trusted evidence-based women's health information, and increase reach into more remote locations.

From all corners of Australia high profile ambassadors, businesses, organisations and sporting groups are getting behind the Jean Hailes Women's Health Week. We invite you to join us in supporting the Jean Hailes Women's Health Week, and to be part of the journey in keeping our Australian women well.

The attached Key Messages PDF details the different focus on each of the 5 days.

Day 1: What is confidence?

Day 2: Opportunities for health

Day 3: Mind your mind

Day 4: Engage

Day 5: Now what?

Sydney Diabetic Foot Conference 2015

On behalf of the conference committee it is our pleasure to invite you to SDFC 2015 to be held at Liverpool Hospital, Sydney NSW from 16-17 April 2015.

The Conference will provide you with the opportunity to participate in the scientific program exploring the theme of 'The foot in diabetes: A view from down under, does it get any better?'. The program follows the proven concept of SDFC 2013 and includes both key national and international experts.

We believe this will be an attractive program to all those involved in the broad field of the foot in diabetes and the conference will focus particularly in the areas of; vascular disease, in-patient management, Australian diabetes foot research, woundcare and biomechanics.

In addition to an expanded scientific program, SDFC 2015 will utilize a new state of the art Skills and Simulation Lab at Liverpool Hospital for a range of workshops on;

- 'Learn the technique' - undertaking tissue biopsy for bacterial cultures.
- Clinical photography masterclass – take better photos of your wounds.
- 'Learn the technique' – VAC masterclass; all the tricks of the trade.
- Transcutaneous Oximetry (TCPO2) and toe pressures.
- 'Learn the technique' – make an off loading device out of flexible and rigid casting tape.

We look forward to seeing you at Liverpool for the SDFC 2015

Regards,

Matthew Malone (Chair)

Professor Rob Fitridge (Co-Chair)

Positions Available for Group leaders at MIMR-PHI Institute

MIMR-PHI Institute of Medical Research: In January 2014, the Monash Institute of Medical Research (MIMR) and Prince Henry's Institute of Medical Research (PHIMR) merged to form MIMR-PHI Institute of Medical Research, creating one of the largest medical research Institutes in Australia. The mission of our researchers is to improve global well-being through excellence in medical research and clinical applications.

MIMR-PHI Institute of Medical Research Group Leader Positions

Endocrine Advanced Trainee (RCY and core), Darwin, 2015

We are currently recruiting for two positions of endocrinology advanced trainee registrar at Royal Darwin Hospital for 2015. One position is accredited as a required clinical year and the other is accredited as a core year. The positions provide unique training opportunities in Indigenous and remote endocrinology. For further information please contact A/Prof Louise Maple-Brown: via switch on 08 8922 8888 or louise.maple-brown@menzies.edu.au. Applications close **Friday 15 August 2014**.

To apply, please send CV with contacts of two referees and a cover letter outlining your specific interest in training in endocrinology in the NT to RDHMedicine.THS@nt.gov.au and copy to louise.maple-brown@menzies.edu.au.

11TH ASIA PACIFIC CONFERENCE
ON DIABETIC LIMB PROBLEMS
14 – 15 November 2014

Event Name:	11 th Asia Pacific Conference on Diabetic Limb Problems
Dates:	14 – 15 November 2014
Venue:	Monash University – Parkville Campus, VIC, Australia
Website:	www.apcdlp2014.com
Abstract Submission Deadline:	30 August 2014
Earlybird Registration Deadline:	26 September 2014

The conference will bring together leading Diabetes specialists from Australia and the Asia Pacific region. The event is being hosted and supported by Monash University and in particular The Faculty of Pharmacy and Pharmaceutical Sciences. The conference has been endorsed by the Australian Wound Management Association, the Advanced Practising Podiatrists High Risk Foot Group and Diabetes Australia.

The comprehensive program will examine all major aspect of Diabetes and in particular the Diabetic foot. Topics that will be covered by both Australian and invited overseas speakers will include:

- Diabetes a major regional issue
- Vascular interventions in Diabetes
- Infection a growing risk in the Diabetic
- Pain and the Diabetic
- Orthopaedic surgical issue
- Plastic and reconstruction surgery
- Nutrition and Diabetes
- Regional perspectives in the growth of Diabetes
- The major role of podiatry in the prevention and management of the Diabetic foot
- Cutting edge new science in the use of markers for Diabetic wound healing
- New treatments for charcot foot

The Conference will also expose the delegates to two workshops on Diabetic Foot Assessment and new methods of off-loading the Diabetic foot. These will be conducted on both days of the conference to allow as many registrants to attend the workshops. The conference will invite submissions of both oral presentations and posters, with prizes offered for the best oral presentation by a young investigator and the best poster.

The Asia Pacific Association for Diabetic Limb Problems was formed ten years ago by a small group of health professionals in Singapore and regional countries to help educate and understand the disease and how best to treat the consequences of Diabetic limb injury. The Association holds a meeting each year in a different country in the region bringing together health professionals working in the area. The conference will bring together both leading Australians and also leaders from the region including India, Malaysia, Indonesia, Philippines, Taiwan, Sri Lanka, Hong Kong, New Zealand, China and Singapore. The conference is a unique opportunity to bring together regional health professional, with their Australian colleagues and will hopefully provide a vehicle for on-going collaborations.
